DANIYAR SAIDALIEV

GROWTH · DISTRIBUTION · SALES

Dubai, UAE · +971 50 954 2069 · saidalievdaniyar10c@gmail.com · daniyarue.github.io · Ready to relocate to Almaty

I build distribution channels and I sell. Took a channel from zero to 280,000 subscribers solo — 207,000 of them and 22M views in the first 28 days — by reading analytics daily and rewriting hooks against retention data. Closed AED 1M (≈ USD 272K) in personal sales in my strongest month. I vibe-code my own tools — shipped a working AI sales agent in 2 days and sold variants of it to three companies. Russian and Kyrgyz native, Uzbek, English C1.

0 → 280K subscribers (207K in 28 days) | **AED 1M (≈ $272K) personal sales in one month** | **AI sales agent live in 2 days, sold to 3 companies**

EXPERIENCE

YouTube Gaming Channel — Creator & Operator
2026

Self-operated, real gameplay · built, grown and sold

- **Grew a gaming channel (real gameplay) from zero to 280,000 subscribers — 207,000 and 22.1M views in the first 28 days** — testing hook variations daily against retention data and scaling only what held viewers.
- Earned the YouTube Silver Creator Award. Ran scripting, visuals, voice, editing and publishing end to end, solo. Grew it to 280,000 subscribers, then sold it.

Muras — Founder
2026

Dubai, UAE · AI sales agents

- **Built and deployed the first working agent in 2 days**, on Telegram, reading the client's CRM — then sold variants of the same base to **3 companies**: an FMCG distributor, a showroom and an agency.
- **Raised average order value at the FMCG client** by turning a messy CRM into a prompt: a rep types "shipment X arrived", the agent returns who buys it most, who to pitch and the revenue at stake — customers the rep would not have remembered to contact.
- **Gave the CEO revenue and profit on demand**, any hour, replacing "ask the accountant and wait". Built solo; shut it down because each client needed its own deep custom logic and nothing carried over.

KADR.AI — Founder
2026 – Present

Dubai, UAE · AI content studio

- **Closed 4 orders worth USD 2,500 in a 10-day window — three of them on cold outreach**, sourced by me on email, Instagram and direct website contact; the fourth was the luxury retailer I worked for.
- **Delivered 800 product images in exactly 24 hours** from order to shipment — a full catalogue rebuilt as studio-grade photography. The images replaced paid photography on the client's site and ran in live Meta ad campaigns that generated sales.
- Shipped commercial videos that then ran as paid ads, talking-head UGC and hypermotion product spots. Run my own Meta campaigns, from creative to spend.

COVER (Cover Space Trading) — Sales Manager
Nov 2026 – Present

Dubai, UAE · Luxury architectural and fit-out showroom

- Represent the company at industry exhibitions, presenting to architects, contractors and fit-out firms and converting floor conversations into meetings.
- Run the full cycle on new business: outreach, presentation, negotiation, close.

Caviar Boutique — Sales & Boutique Manager
Nov 2024 – Nov 2026

Dubai, UAE · Luxury retail and B2B (HoReCa)

- **Closed AED 1,000,000 (≈ USD 272K) in personal sales in my strongest month**, selling to hotels, restaurants and VVIP private clients across Dubai and Abu Dhabi.
- **Worked to a shared team revenue KPI** on top of personal commission on sales — one target for the whole boutique, hit together.
- **Won Mandarin Oriental, Bvlgari Yacht Club, Madinat Jumeirah, Billionaire, Krasota and Plumpy** by driving to each venue and running in-person tasting presentations for executive chefs and F&B decision-makers.
- **Cut procurement cost** by building the supply chain myself — direct from EU suppliers and a China packaging manufacturer, negotiating price and quality with no intermediaries. Managed a 15-person team across operations, inventory, CRM and fulfilment.

Yandex Taxi Fleet — Company Manager
Jun 2024 – Sep 2024

Regional operations

- **Onboarded ~10,000 clients over 3 months** — produced the Instagram content that drove inbound and handled every enquiry through to activation. Also ran accounting, payroll and bonus administration for the region.

BUILD AND AUTOMATE

Tools I build with — Claude and Claude Code, ChatGPT, Gemini, Supabase, MCP servers and custom skills, scraping and automation pipelines. HTML, CSS, JavaScript, Python. Not a trained engineer; I ship working tools.

AI production — Kling, Seedance, Veo, Higgsfield, Midjourney, Nano Banana Pro, HeyGen, ElevenLabs, Suno. Completed GenHQ's AI content programme.

SKILLS · LANGUAGES · EDUCATION

Growth — organic and viral content, hook engineering against retention data, creator and partner outreach, cold outreach and lead generation, paid social (Meta), funnel and pipeline tracking, automation of repeatable work.

Commercial — B2B and B2C sales, field sales, negotiation and closing, key account management, CRM, team management (15 people), supplier sourcing.

Languages — Russian (native), Kyrgyz (native), Uzbek, English (C1).

Education — BSc Digital Business & Data Science, University of Europe for Applied Sciences, Dubai, 2024–2027. Coursework complete; final-year internship remaining.
